### Article V

Barbados is part of a global community with strong international relations with other states which is vital to national development.

As a small island state, we must engage harmoniously with others and work collaboratively to preserve global peace and stability.

We will honour our international obligations while championing the causes that are important to safeguarding the future and stability of Barbados and the Caribbean.

## WHAT is the Citizenship Course?

- The Citizenship Course is an online eLearning course which is offered by the National Transformation Initiative (NTI).
- The course is about our values, rights and responsibilities as citizens.
- It provides tools that help us communicate better, work well with each other and be active citizens involved with our community, church and country.
- The course allows us to explore our personal goals and dreams, assess our skills, learn more about how our government functions and the roles and responsibilities of our official leaders.
- Finally, it helps us to identify who we are, the things that make us Bajan and answers what it means for Barbados to be a Republic.

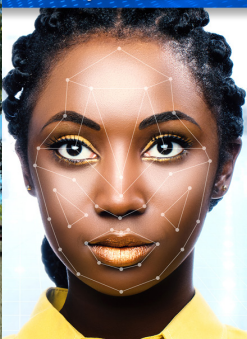

## WHY do the course (or what's in it for me)?

- The course is created by Barbadians for Barbadians so it focuses on our unique culture, heritage and way of life. It is just for us and what we need.
- It also helps us understand the key pillars of government and how it all works.

### It helps you to:

- Build self-confidence and a better understanding of our place in our society.
- Discover how to tap into our skills and make a plan on how to reach our goals.
- Develop our communication and teamwork skills.
- Believe in yourself enough to try new things.
- Build self-awareness so that we can improve relationships at home, at work and in our communities.
- Plus once you have done this course it is easier to find other courses to learn new skills to help you reach your goals.
- Remember, ALL courses offered by the NTI are FREE!

## HOW does it work?

- Just register at **training.nti.org.bb/citizenship** and get started.
- The course uses text, graphics, animations, video, scenarios, interactions...various learning tools, to help you succeed in completing the course.
- Best of all, you learn at your own pace. You can start the course, work for 10 minutes and then go do other things. When you go back to the course you pick up from where you left off and continue... **It's that easy.**
- The Course is divided into the Course Essentials and 5 Modules. Each Module must be completed in order and must be finished before moving on to the next module.
- The modules are divided into Units and Lessons. At the end of each Unit there is a short quiz to recap what you have learned.
- On completing the course, you will receive a certificate, signed by the Prime Minister of Barbados.

## WHEN can I start?

- **NOW!!!** You can take the course anywhere.... At home, in the park, at the beach, in a café... anywhere you have internet access.
- And anytime... Waiting for a bus? Picnic at the beach? Can't sleep? Got 10 minutes to spare?... Log on at **training.nti.org.bb/citizenship** and pick up from where you left off.
- **Best of all, the Citizenship Course is FREE!**
- **Plus, there are NO data charges.**

This course is for every Bajan from 13 years old:

- Persons who are self-employed, employed, unemployed, underemployed and upcoming entrepreneurs.
- Business owners and executives.
- Students, teachers, counsellors.
- Members of a church, community group or sports club.

# WHO is the NTI?

- NTI is the **National Transformation Initiative**. We are the agency that provides training and eLearning courses FREE for us Bajans so we can improve our skills and be prepared to work anywhere in the world from right here in Barbados.
- The NTI Core Courses are created just for Bajans like: Online Safety Essentials; Core Skills; Citizenship; Personal Financial Management; Introduction to Coding with Java... and more.
- Plus, there is the NTI-Coursera partnership with international courses from accredited Universities and organisations which provide certificates on completion. Courses like those in the Creative Industries; Technology; Business; Renewable Energy; Communication Skills.... and so much more.
- Although training is an integral part of what we do, the NTI is more than a training platform. *That is exactly why we changed the word training to transformation in our name!*
- We perform a transformational role that is rooted in our belief that every Barbadian has the power to create change, to improve, and to be empowered in ways that have a positive impact on them on an individual, community and global level.
- Our commitment is to transform Barbadians through the learning of essential values, skills and knowledge to be citizens of good character, critical thinkers, innovators and strong, confident communicators, all comfortable navigating the digital space.
